Work Experience

Altrata, London
Product Designer — May 2023 - Present

- Owned end-to-end product design for the Altrata web platform, consolidating four legacy brands into one enterprise solution, with improved usability **driving 74% customer migration** within six months.
- Established the DesignOps pipeline from Figma to production, the platform's primary build source, adopted by 6 engineering teams reporting an average **2.6x faster front-end delivery.**
- Introduced and facilitated quarterly **Design Labs** with product, tech and data teams, turning cross-functional inputs into prioritised features for upcoming releases.
- Built and maintained the **Altrata Design System to WCAG 2.2 AA** standards, scaling it across platforms to keep the UI consistent enterprise-wide.
- Represented design in company forums, product success calls and commercial sessions, raising design maturity from limited UX awareness to a recognised driver of product outcomes.
- Led usability testing and discovery sessions with clients including Deloitte and UNESCO, synthesising findings into platform decisions.

Ramboll Pvt Ltd, India
UI/UX Designer — Mar 2021 - Aug 2021

- Owned complete interface design for a wastewater management application, translating **10+ engineering workflows into a system** now in daily operational use.
- Designed the application's risk monitoring dashboard that enabled operators to identify critical conditions at a glance, **validated through user testing.**
- Collaborated within a cross-functional team of 12 on a project management web application, focusing on user research and producing detailed personas, use cases, user scenarios and journey maps.

Quatics Tech Pvt Ltd, India
Lead Product Designer — Aug 2020 - Feb 2021

- Sole designer on a **0-to-1 tablet learning suite of nine school applications**, owning information architecture, interaction design and UI with consistent visual language across the suite.
- Led the brand identity and design strategy redesign, aligning product, marketing and leadership behind a new market positioning.

Work Experience cont.

Wallistry, India
Product Designer May 2019 - Jul 2020

- Designed a workplace wellness kit, owning every stage from user research and concept through prototyping, testing and production.
- Delivered design across flagship products, spanning **product detailing, sustainable packaging and retail collateral.**
- Managed brand social channels and product photography, growing following from **4k to 10k.**

Beyond the role

Panellist, MA UX Industry Panel, London College of Communication, UAL. Presented experimental UX methods to the incoming cohort.

Ran a digital sustainability conference that left colleagues with practices they still use.

Monoact selected as one of ten entries for 'Stories of Water', Living Waters Museum. On permanent display. Link to the exhibit.
