

**Clarity by design.
Intent by choice.**

Product Designer specialising in complex, data-driven products, turning user needs into clear, scalable solutions. I believe less is more, even in complex systems, because there's always a human behind the platform who deserves simplicity.

WORK EXPERIENCE

Product Designer Altrata, London (May 2023 – Present)

People and Wealth Intelligence Platform • Data-Driven Solutions

- Owned the end-to-end product design of the Altrata web ecosystem, consolidating four legacy brands into a unified enterprise platform that serves investment banking, executive search, luxury and institutional fundraising verticals.
- Built and maintained the Altrata Design System to WCAG 2.2 AA standards, scaling it across platforms to drive UI consistency and improve development efficiency.
- Led usability testing and discovery sessions with clients like Rolls-Royce and UNESCO, synthesising user insights to directly inform strategic design decisions.
- Prioritised feature roadmaps with Product Managers and took design from wireframe to prototype to developer handoff across three parallel product lines.
- Established quarterly Design Labs for product, tech, and data teams, transforming ideas into new opportunities for upcoming feature releases.

UI/UX Designer Ramboll Pvt Ltd, Chennai (Mar 2021 – Aug 2021)

Engineering Services • Project Management and Operations Tooling

- Owned complete interface design for an in-house wastewater management application, translating complex engineering workflows and wireframes into a production-ready system. First draft was approved by client stakeholders with only minor revisions.
- Designed the application's monitoring dashboard around risk and warning states, establishing the visual hierarchy and alerts, so operators could identify critical conditions at a glance.
- Collaborated with a team of researchers, designers and engineers on a project management web application, building personas, journey maps, wireframes and final UI for the platform's key features and workflows.

Freelance Designer Quatics Tech Pvt Ltd, Chennai (Aug 2020 – Feb 2021)

Ed-Tech • Learning Management System

- Sole designer on a nine-application tablet-based learning suite for schools, spanning video conferencing, assessments and eBooks. Owned content strategy, information architecture, interaction design and UI, establishing shared patterns across the suite to ensure a consistent user experience.
- Led the redesign of the brand identity and design strategy, bringing product, marketing and leadership behind the positioning shift.

Product Designer Wallistry, Chennai (May 2019 – Jul 2020)

Product Design Studio • Lifestyle Accessories

- Designed a workplace wellness kit, owning every stage from user research to production, through concept, prototyping, and testing.
- Delivered design at every stage of our flagship products, covering product detailing, sustainable packaging, promotional collateral for retail and online channels, social media management and product photography.

EDUCATION

Master of Arts, User Experience Design

London College of Communication, UAL • Oct 2021 - Dec 2022 • Projects available [here](#).

Bachelor of Design, Industrial Design

DJ Academy of Design, India • 2016 - 2020

BEYOND THE ROLE

Panellist, MA UX Industry Panel, London College of Communication, UAL. Presented recent experimental UX methods in the industry to the incoming cohort.

Ran a digital sustainability conference that left colleagues with best practices they still use to reduce their carbon footprint.

Monoact selected as one of ten entries for the Stories of Water exhibit by the Living Waters Museum, currently on permanent display. Link to the [exhibit](#).
